

Airbus A321-200: Standard Class

Titan Airways operates three modern Airbus A321-200 jets. All three aircraft have recently undergone a full cabin refurbishment and feature sleek new slim-line Acro seats. The ergonomically designed seats offer very comfortable leg room even at a 29 inch seat pitch. One of the aircraft is configured with 218 of the smart leather slim-line seats, while the other two are configured with 220 seats. All three aircraft also have split class cabin options. Quiet, environmentally friendly and economical, this stretched version of the A320 is ideal for mid to long term ACMI sub-charter and lease roles as well as tour operator and cruise flight programmes. Titan Airways A321 aircraft are currently available in an all-white livery, allowing customers to easily apply their own decals and branding. Contact us on either 00 44 (0)1279 680616 or charter@titan-airways.co.uk for full details.
