

Airbus A321-200 Split Standard/Business Class

Titan Airways operates three modern Airbus A321-200 jets. All three aircraft have recently undergone a full cabin refurbishment and feature brand new Acro seats in a choice of split, as well as economy, cabin configurations. The split cabin option features 44 Series 7 Acro business class seats and 100 Series 3 Acro standard seats. Both seat types are upholstered in black leather for a sleek modern look. The business seats at the front of the cabin offer a 45 inch seat pitch and are complete with in-seat power, adjustable headrests, leg rests and foot rests. At the rear of the cabin, the ergonomically designed slim-line standard seats offer very comfortable leg room, even at a 29 inch seat pitch. Our A321 split cabin options are ideal for sports teams travelling to international fixtures and for tour operators and cruise specialists wishing to offer a two tier product. Titan Airways A321 aircraft are currently available in an all-white livery, allowing customers to easily apply their own decals and branding. Contact us on either 00 44 (0)1279 680616 or charter@titan-airways.co.uk for full details.
