

B1 Licenced Aircraft Engineer

Titan Airways has a requirement for permanent, full time B1 Licenced Engineers to join our Engineering team, based primarily at London Stansted Airport, Essex.

The main duties and responsibilities of the role are:

- Completion of the tasks allocated to them on a shift by shift basis by the Station Engineer or Shift Supervisor, or carried out as part of their routine duties, in accordance with company procedures;
- Certification of the work carried out by themselves under the terms of, and within the limitations set by, the personal company authorisation issued to them;
- Supervision duties in respect of the mechanics, handlers, Interiors Technicians and aircraft cleaners as allocated by the shift supervisor;
- Ensuring that they are familiar with the MOE procedures and work instructions that affect their duties;
- Performing engineering duties 'Away from Base' or at outstations as detailed by the Maintenance Manager or Station Engineer, including acting in, and representing the Company in a manner acceptable to the Company;
- Operate as a flying engineer on flights that require such a function with the ability to depart with the aircraft at short notice;
- Ensuring that the cleanliness and interior trim of the aircraft are maintained to company standard;
- Ensuring that the engineering facility, vehicles and equipment are clean and serviceable and aircraft are positioned in the hangar or on the Titan designated parking area wherever possible.

The following requirements are essential for this role:

- Ideal candidates must hold a UK CAA + EASA - PART 66 Licence and have a minimum 6 months experience within the past two years, on at least two of the following aircraft/engine types: A320 Cfm/V2500 + Leap, A330 RR, B737 CL, B757 RR
- Hold or obtain a recency letter from QA Department along with Company authorisation from most recent employer
- Provide supporting Logbooks or worksheets demonstrating recency
- EWIS, FTS, HF (Initial + recurrent)
- Candidates must have excellent communication skills with a flexible approach
- Be willing to work away from base to support the fleet and company operations and to be able travel at short notice as a flying Engineer or with AOG recovery
- Shift work including nights, working a 5x5x4 shift pattern
- Hold a full and valid Driving Licence
- Hold a valid Passport with the ability to reside and work in the UK. (Pre-settled, settled status share code or citizenship application will be required if shortlisted to interview)
- Fully vaccinated against COVID-19 (unless medically exempt)
- Be computer literate
- Ability to provide information for 5 year referencing
- Ability to pass a pre-employment drugs and alcohol screening

If you believe you have these essential qualities, please send a covering letter and CV to recruitment@titan-airways.co.uk

Closing date for applications is Thursday 2nd December 2021
