

Airbus A320

The standard for comfort

Airbus A320

No. of aircraft	2
Max no. of passengers	180
Cabin configurations	180Y 64C/18Y 48C/18Y
Range	4,250nm
Cruise speed	540mph
Cruise altitude	39,000ft

Setting the standard as the world's most comfortable single-aisle short to medium haul aircraft, the Airbus A320 is the most popular aircraft ever manufactured.

Titan Airways Airbus A320 is available with 180 standard seats, six abreast. In this configuration the first nine rows of seats can be converted into a four abreast set-up with a slide-in cocktail table between each pair of seats.

To meet higher end requests, we offer a cabin with 64 premium and 18 standard seats. In this configuration, the aircraft has a surprisingly long range. It can fly for up to 7 hours nonstop and is ETOPS 120 certified.

All our A320 cabins are furnished with sleek modern seats from Acro, ergonomically designed for passenger comfort. The standard seats are slimline for greater legroom and more width, while the premium seats feature moveable head and leg rests, a generous recline and good stowage.

Thanks to our range of seating options, Titan Airways Airbus A320 is a versatile aircraft which can meet a wide range of air charter requests.

Standard seats

Our slimline seats maximise legroom and are ergonomically designed for a more comfortable flight. Our single-class cabin offers a minimum 28-inch seat pitch between rows. Slide in cocktail tables can be installed at rows 1 – 9.

Premium seats

Our premium seats offer moveable head and leg rests and a generous recline. They feature in-arm tray tables with a cup recess and central console with stowage. Our two-class cabin options offer a 48-inch seat pitch between premium rows and a 33-inch pitch between standard rows.
