

Airbus A321

The efficiency benchmark

Airbus A321

No. of aircraft	2
Max no. of passengers	220
Cabin configurations	220Y 218Y 32C/124Y 44C/106Y 80C/10Y
Range	2,800nm
Cruise speed	540mph
Cruise altitude	39,000ft

Setting the benchmark for comfort and efficiency in single aisle aircraft operations, the Airbus A321 can carry up to 220 passengers in comfort. It boasts the widest cabin of any aircraft in its category, offering passengers more space, and has the longest fuselage of any Aircraft in the Airbus A320 Family, accommodating up to 40 additional passengers compared with the A320.

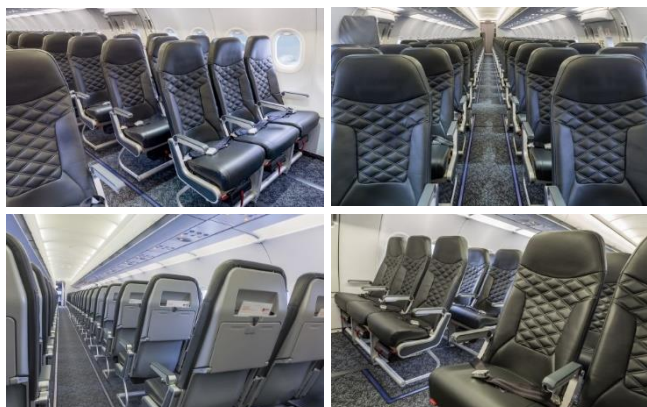

Titan Airways Airbus A321 is available in a single-class layout with either 218 seats or 220 standard seats. We also offer several two-class cabin and premium cabin options.

All our A321 cabins are furnished with modern seats from Acro, ergonomically designed for passenger comfort. The standard seats are slimline for greater legroom and more width, while the premium seats feature moveable head and leg rests, a generous recline, in-seat power and good stowage.

Thanks to our versatile cabin configurations, our Airbus A321, is suited to many different air charter and aircraft lease requirements.

Standard seats

Our slimline standard seats maximize leg and elbow room and are ergonomically designed for onboard comfort. The seats have either a fixed back position or can be adjusted to offer a recline. Our single-class cabin offers a minimum 28-inch seat pitch between rows.

Premium seats

Our premium seats offer moveable head and leg rests and a generous recline. They feature in-arm tray tables with a cup recess, a central console with stowage and in-seat power. Our two-class cabin options offer a 45-inch seat pitch between premium rows and a 28-inch pitch between standard rows.
