Cabin configurations	<u>195Y</u> <u>52J/12Y</u> <u>48J/12Y</u>
Range	4,250nm
Cruise speed	540mph
Cruise altitude	39,000ft

As part of our commitment to sustainability, we have invested in the most fuel-efficient single aisle passenger aircraft available today, the Airbus A321neo. Integrating the latest engine generation and Sharklet™ wingtip devices, the neo boasts unrivalled fuel efficiency.

Titan Airways A321neo fleet includes the long-range variant which can fly more than 4,000nm nonstop, making it perfect for medium to long-haul flights and transatlantic routes. It is also ETOPS 180 certified.

Our A321neo aircraft is available in a low-density single-class layout with 195 of Acro's latest slim-line seats for maximum comfort and more legroom. We also offer two business cabins, one with 52 business seats and 12 standard seats and one with 48 business seats, 12 standard seats and a social area with bar and buffet. Our handcrafted business seats are upholstered in soft, cream Italian leather and convert smoothly into lie-flat beds for travel in ultimate comfort.

All our neo aircraft cabins are equipped with USB power and WiFi throughout, allowing our guests to stay connected whilst onboard.

Standard seats

Our slimline standard seats maximise leg and elbow room and are ergonomically designed for onboard comfort. The seats have either a fixed back position or can be adjusted to offer a recline. Our single-class cabin offers a minimum 31-inch seat pitch between rows.

Business seats

Our handcrafted business seats offer a huge six feet three inches of space between rows and convert smoothly into fully lie-flat beds for travel in ultimate comfort. Each seat features a privacy screen and an ottoman for comfort and additional stowage.
